

## XBow Series

Precision Pliers & Cutters

Swiss Made

# XBow Series

We're pleased to introduce our new, XBow Series, line of precision cutters and pliers. Designed and manufactured in Switzerland, these tools meet the very demanding needs of bench jewelers, metalsmiths and chainmaille artists and are of the high quality you've come to expect from Xuron Corporation.

- Manufactured from high quality ball bearing steel.
- Cutters are heat treated to 63 Rc and Pliers to 45 Rc.
- Smooth, non-glare satin finish.
- Lap joint with screw for strength and perfect blade alignment.
- Stainless Steel, dual leaf spring.
- Ergonomic grip design.
- Lifetime warranty against defects in material and/or workmanship when used as recommended.

## XBow Pliers

### Short Chain Nose Pliers - E6021

Short smooth jawed chain nose pliers; for bending, forming and grasping wires / jump rings.  
Jaw length - 20mm

### Short Flat Nose Pliers - E6011

Strong, wide, flat smooth jawed pliers; perfect for working with heavy gauges of wire and chainmaille.  
Jaw length - 20mm

### Long Chain Nose Pliers - E6021

Long smooth jawed chain nose pliers; for reaching into small spaces, bending, forming and grasping wires, findings, and jump rings.  
Jaw length - 30mm

### Long Flat Nose Pliers - E6013

Smooth jawed flat pliers provide maximum jaw surface area; perfect for chainmaille, sheet metal, and heavy gauges of wire.  
Jaw length - 30mm

### Stout Chain Nose Pliers - E6023S

Extra strong smooth jawed, robust chain nose pliers; excellent for reaching into small spaces and hearty enough to do the heavy lifting.  
Jaw length - 28mm

### Bent Chain Nose Pliers - E6023B

All the benefits of the long chain nose pliers with the addition of a small bend at the tip. Allowing the wrist to remain in a neutral position and access to small spaces.  
Jaw length - 30mm

### Needle Nose Pliers - E6025

Incredibly fine precise smooth jawed pliers; perfect for ultra tiny wire projects. Strong enough for demanding wire and metal forming tasks.  
Jaw length - 30mm

### Round Nose Pliers - E6041

Ultra precise, round tips. Excellent for making perfect tiny loops.  
Jaw length - 24mm

## XBow Cutters

XBow Cutters are available in three different sizes and three cut variations.

### Cutter Head Size

Small - Slim shape and optimum balance between durability and accessibility.

Large - Strong and durable, for intense cutting operations.

Extra Large - Extremely strong and durable designed for most intense cutting operations.

### Types of Cut

Semi-Flush - Designed to cut heavy gauges and have a lasting blade edge.

Flush - Designed to cut a range of heavy to finer gauges and results in an almost flat cut.

Full-Flush - Designed to cut medium to finer gauges and provides the smoothest flattest cut.

### Oval Head Cutters

Strong and durable. The oval head has more mass and therefore can accommodate heavy gauges.

#### Cutter - Part #- (Max Gauge)

Small Flush - E5141 - (17ga)

Small Full-Flush - E5142 - (18ga)

Large Flush - E5151 - (14ga)

Large Full-Flush - E5152 - (17ga)

XL Semi-Flush - E5160L - (9ga)

XL Flush - E5161L - (10ga)

XL Full-Flush - E5162L - (10ga)

### Tapered Head Cutters

Narrower blade tips are excellent for cutting close in hard to reach areas.

#### Cutter - Part #- (Max Gauge)

Small Flush - E5341 - (18ga)

Small Full-Flush - E5342 - (20ga)

Large Flush - E5351 - (17ga)

Large Full-Flush - E5352 - (18ga)

### Micro Tip Cutters

Long narrow jaws with sharp blades at the tip and a deep relief provide an exceptionally low profile for cutting in tight spaces.

#### Cutter - Part #- (Max Gauge)

15° Micro Tip - E5233 - (20ga)

Oblique Micro Tip - E5234 - (20ga)

### Tapered & Relieved Head Cutters

Pointed head shape and deep relief create a very low profile; providing maximum accessibility when space is limited.

A good choice for prong cutting.

#### Cutter - Part #- (Max Gauge)

Small Flush - E5541 - (17ga)

Small Full-Flush - E5542 - (20ga)
