## REACH COMPLIANCE STATEMENT

The European Union Directive EC Regulation No 1907/2006 (REACH) refers to the European Legislation requiring registration of any REACH-listed articles, substances, and chemicals including the substances of very high concern (SVHC) and any restricted chemicals above one metric ton that are manufactured or imported into the EU by the importer of the parts.

Under the reading of the regulation and in communication with our material suppliers, to the best of our knowledge we can confirm that:

1. Xuron® brand products do not currently contain substances listed on the Candidate List of Substances of Very High Concern or the Authorization List, both as published on the ECHA web site as of the date of the statement, in excess of the applicable legal limits.
2. All substances contained in Xuron® brand products are currently in substantial compliance with the current conditions and restrictions of Annex XVII of the REACH regulations.
